

TECMO KOEI SINGAPORE PTE LTD

Job Title: **Games Programmer**
Availability: **Immediate**
Posting Date: **17 Dec 2010**

Please contact hr@tecmokoei.com.sg

Job Description

The Games Programmer is an integral part of the Games Development team. He/She possesses technical expertise to develop games or technologies to support them. He/She is responsible for architecture, design, programming, prototyping, documenting and supporting the product development. He/She writes high quality, performance-driven code. The competent Games Programmer continually participates in the generation of good ideas and enhances best practices. He/She is able to understand and estimate project schedules, and anticipate and prepare for changes and obstacles. The Games Programmer is a team worker and expected to provide leadership in his/her areas of expertise.

Requirements

- At least 2 years of experience working in a product development or support environment as a software engineer
- Bachelor of Science or Engineering in Computing, Computer Science or Computer Engineering or equivalent.
- C/C++ expertise
- Excellent team and communication skills required.
- Preference for candidates who have worked in games development

If you have experience or expertise in any of the following areas, please highlight:

- Actionscript/Java/Javascript/PHP Programming
- Database management systems (preference for experience in mySQL or noSQL)
- Cloud computing
- Server and network architecture and scripting
- Programming on handhelds and console gaming platforms
- Mobile platforms (Android, iPhone)
